

⤴ CISSP study plan - 2021

by ThorTeaches.com

This is the approach I use for all the certifications I take and it works very well for most of my students too!

1. Watch the certification videos you have. I suggest 1-3 different sources, watch all the videos, take notes on the downloadable study guides from ThorTeaches.com.
2. Read the book you chose. I suggest 1-2 different books, supplement your notes.
3. Read Memory Palace, CISSP process guide, Sunflower notes, and NIST documents
4. Re-watch the videos, maybe at x1.5-2 speed, update your notes.
5. Re-read the books, update your notes.
6. Do practice questions. For the CISSP do a lot of them ... A LOT.
 1. It is normal for students to do between 3-5,000 practice questions.
 2. After each practice tests, read all the explanations on the questions you got wrong and then re-study those areas until you can explain them (videos/books).
7. Do another practice test.
8. Repeat step 6-7 until you hit 80%+ on multiple practice engines.

Use your 1,500-3,500 easy/mid questions first, then do your 1,500 hard CISSP questions.

(See my CISSP study materials videos to find your practice questions).

Do not reuse practice tests, it will not give you an accurate result if you have answered the questions before.

CISSP study plan by ThorTeaches.com

week 5	Date:	Read page 0-49 pages from your primary CISSP book. Add to your notes.	Read page 50-99 from your primary CISSP book. Add to your notes.	Read page 100-149 from your primary CISSP book.
